MADE IN GERMANY DAS ORIGINAL

MHS 95-D water-cooled

450 Ampere at 100% duty cycle (CO_2) - 400 Ampere at 100% duty cycle (mixed gas)

Operating instruction

Screw laminated fabric-tension sleeve right-hand thread (60) down until it goes no further. Then, mount rubber flatring (64), water distributor (66) and a second rubber flatring (64). Slide brazen sleeve over the so assembled parts against the laminated fabric-tension sleeve. Now, mount the plug insulating sleeve (69) and the support shim (75). Screw in the contact tip holder (62) and tighten with jaw wrench. Now, screw back the laminated fabric-tension sleeve. The rubber flatrings are being compressed and pushed to the outside, sealing the water circulation system and holding the brazen sleeve. Screw in contact tip and mount gas nozzle (80,81,82) with insulation (86).
