Benefits.

Heavy-duty, robust tool trolley with 157-piece tool set for a wide range of applications in industry, trades, automotive or even DIY.

The tool is securely stored in chemical-resistant, durable foam inlays with precise tool recesses and a signal coloured base layer.

The two-stage security concept reliably protects the stored tools against unauthorised access.

Patented QuickRelease locking system - secures every component from ratchet and extension to socket.

6 large drawers with full extension runners ensure efficient organisation of tools and materials.

Product highlights.

Complete solution for industry.
Our extensive range includes high-quality tools for a wide range of applications, such as vehicle maintenance, general repairs or assembly and disassembly work. It includes spanners with various sizes, sockets up to 32 mm, a large bit set, a wide selection of pliers and much more. With this equipment, you get a broad base for a wide range of applications in the automotive, electrical and mechanical engineering industries.

Takes on anything.
The 877 x 481 mm work surface is particularly suitable for working on large components. The integrated compartments for small parts ensure a tidy and clearly arranged storage area. Thanks to its robust construction, the TTS 93 has a static load capacity of 500 kg. Thanks to reinforcements, the drawers can be loaded with 30 kg and the bottom drawer even with 45 kg.

Full configuration as standard.
Whether paper roll holders, perforations on both sides for attaching accessories, locking brakes or oil and acid-resistant smooth-running castors (Ø 125 mm) with thread protection. Our tool trolley comes with many features as standard.

Technologies and features.

Tool Control System
The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

QuickRelease
The QuickRelease safety lock prevents unintentional loss of insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change. In transducers: The QuickRelease safety lock helps you to quickly mount and change transducers. The transducers lock into the calibration system and only unlock again at the push of the buttons.
