Benefits.

Heavy-duty tool trolley with 7 drawers, exclusive UV coating in a special ‘Best tools never die’ design and 157-piece tool set.

Patented QuickRelease locking system secures all components from the ratchet to the extension to the socket bit.

The tools are securely integrated into durable, chemical-resistant TCS inlays with precise recesses and colour-coded areas.

Equipped for everything: combination ratchet spanners up to 19 mm, combination spanners up to 24 mm, 1/2" + 1/4" QR fine-tooth ratchets with extensions and much more.

The sturdy 95/7 tool trolley has a static load capacity of up to 750 kg - the bottom drawer has a load capacity of up to 45 kg.

Product highlights.

PRODUCT IMAGE IN PROGRESS

From precision mechanics to assembly work.
The range combines 1/4" and 1/2" tools to provide a universal solution for all screwdriving tasks. The high-quality QuickRelease fine-tooth ratchets with extensions, socket bits, bit holders and ratchet screwdrivers with 1/4" drive enable precise and delicate work on fittings, electronics or in vehicle interiors. For power-intensive applications on vehicles and machines, the 1/2" versions offer maximum torque transmission, stability and load capacity.

PRODUCT IMAGE IN PROGRESS

The all-round combination spanner set.
The high-quality combination spanner set covers almost all common screwdriving applications in trade, workshop and industry with sizes from 6-24 mm. The cranked ringside with AS-Drive profile protects screws and nuts and ensures optimal power transmission. Thanks to the reinforced jaw-shank connection and the non-slip rounded finish, each spanner lies securely and comfortably in the hand.

Takes on anything.
High-quality materials such as the tightly welded stainless steel tray with a scratch-resistant honeycomb structure ensure the durability typical of STAHLWILLE and prevent liquids from penetrating into the interior of the trolley. The work surface of 827 x 496 mm is particularly suitable for working on large components. Thanks to its robust construction, the 95 PRO has a static load capacity of 750 kg. Thanks to reinforcements, the drawers can be loaded with 30 kg and the bottom drawer with up to 45 kg.

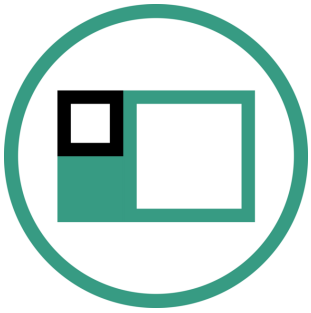

PRODUCT IMAGE IN PROGRESS

A statement on wheels.
Our tool trolley has a new, eye-catching look: with high-quality UV paint in the Best tools never die edition and exclusive STAHLWILLE artwork. The modern paint finish ensures a razor-sharp finish - without any foiling.

Special edition for real tool fans.
This special edition is for everyone who not only uses tools, but truly loves them. The striking skeleton motif makes our trolley an absolute eye-catcher in any workshop - and best of all, there's also a matching beanie, a sticker sheet and a bottle opener made from real torque wrench tubing. Tool style with real character.

Technologies and features.

Modular Inlay System
This flexible solution for tool storage makes it possible to customise your tool trolleys and workbenches with 1/6, 1/3, 2/3 or 3/3 foam inlays.

Tool Control System
The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

QuickRelease
The QuickRelease safety lock prevents unintentional loss of insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change. In transducers: The QuickRelease safety lock helps you to quickly mount and change transducers. The transducers lock into the calibration system and only unlock again at the push of the buttons.

High Performance Quality (HPQ®)
Our HPQ® tool is made of wear-resistant high-performance steel, yet is thin-walled and lightweight. It withstands high torques and is ideal for work in confined spaces such as turbines.
