Properties.

Key features of the tool trolley

- three-stage safety concept:
  - central locking with a lateral cylinder lock and hinged key
  - individual locks prevent inadvertent opening during transit
  - tilt protection – makes it impossible to pull out several drawers at the same time
- high-resolution, durable printing thanks to modern UV printing process (no film wrapping)
- black lacquered steel handle with reinforced body connection
- all-round impact protection with impact damping
- tightly welded, resilient work and storage surface
- oil and acid-resistant ball-bearing smooth-running wheels (Ø 125 mm) with thread guards to protect the bearings from dirt and threads, with 2 locking brakes
- paper roll holder and spray can holder included
- 7 easily removable drawers, black RAL 9005, full-extension runners with bearing cage guide
- two-sided perforated panel for hooks no. 8031- 8041, e.g., for larger tools
- can be fitted with STAHLWILLE standard and TCS inlays
- safely integrated in the modular Tool Control System (TCS)

Benefits.

Heavy-duty tool trolley with 7 drawers, exclusive UV coating in special Best tools never die design and 250-pieces tool set.

Patented QuickRelease locking system secures all components, from the ratchet to the extension to the socket.

The tools are securely integrated in durable, chemical-resistant TCS inlays with precise recesses and coloured signal areas.

Extensive set for the highest demands: QR fine-tooth ratchets with extensions, socket wrench sockets up to 32 mm, bit ratchet screwdrivers and bit box, screwdrivers, various pliers and much more.

The robust tool trolley 95/7 has a static load capacity of up to 750 kg - the bottom drawer has a load capacity of up to 45 kg.

Product highlights.

Power meets precision.
This range includes robust and powerful QR ratchets in 1/4" and 1/2", offering maximum flexibility for every application. Complemented by a 40-piece TORX® and INHEX set in both drive sizes, it impresses with its maximum versatility - from precise fine work to powerful applications in assembly, maintenance and repair.

Extra-long combination spanners.
The range includes 13 extra-long combination spanners in the common sizes from 6-32 mm. Their extended design makes them optimal for bolted joints in hard-to-reach places, such as machine housings, pumps, engine tools or pipes. The optimised leverage enables powerful torque transmission - even in demanding industrial applications.

Precise securing.
Four high-quality circlip pliers for inner and external circlips enable precise work on different ring sizes and positions. The slim plier body facilitates use in confined spaces, such as on gearboxes or bearings. Cylindrical precision tips ensure a secure hold on the rings, while chequered handles offer comfortable and non-slip handling - even during intensive use.

Takes on anything.
High-quality materials such as the tightly welded stainless steel tray with a scratch-resistant honeycomb structure ensure the durability typical of STAHLWILLE and prevent liquids from penetrating into the interior of the trolley. The work surface of 827 x 496 mm is particularly suitable for working on large components. Thanks to its robust construction, the 95 PRO has a static load capacity of 750 kg. Thanks to reinforcements, the drawers can be loaded with 30 kg and the bottom drawer with up to 45 kg.

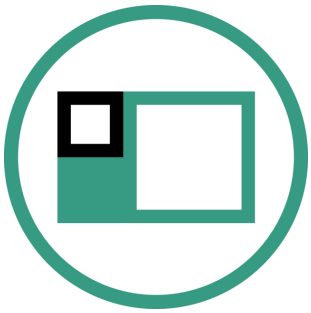

A statement on wheels.
Our tool trolley has a new, eye-catching look: with high-quality UV paint in the Best tools never die edition and exclusive STAHLWILLE artwork. The modern paint finish ensures a razor-sharp finish - without any foiling.

Special edition for real tool fans.
This special edition is for everyone who not only uses tools, but truly loves them. The striking skeleton motif makes our trolley an absolute eye-catcher in any workshop - and best of all, there's also a matching beanie, a sticker sheet and a bottle opener made from real torque wrench tubing. Tool style with real character.

Technologies and features.

Modular Inlay System
This flexible solution for tool storage makes it possible to customise your tool trolleys and workbenches with 1/6, 1/3, 2/3 or 3/3 foam inlays.

Tool Control System
The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

QuickRelease
The QuickRelease safety lock prevents unintentional loss of insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change. In transducers: The QuickRelease safety lock helps you to quickly mount and change transducers. The transducers lock into the calibration system and only unlock again at the push of the buttons.

High Performance Quality (HPQ®)
Our HPQ® tool is made of wear-resistant high-performance steel, yet is thin-walled and lightweight. It withstands high torques and is ideal for work in confined spaces such as turbines.
