Benefits.

Heavy-duty, robust tool trolley with 8 fully extendable drawers and central locking, including 349-piece tool set.

Patented QuickRelease locking system secures all components, from the ratchet to the extension to the socket.

The tools are securely integrated in durable, chemical-resistant TCS inlays with precise recesses and colour-coded signal areas.

Extensive automotive range with fine-tooth ratchets, sockets up to 32 mm, measuring and testing tools, screwdrivers, pliers and much more.

The durable 95/8 tool trolley has a static load capacity of up to 750 kg - the bottom drawer has a load capacity of up to 45 kg.

Product highlights.

Complete solution for automotive and industrial applications.
Our comprehensive tool set offers the right solution for professional applications in the automotive and industrial sectors: whether replacing spark plugs, loosening stubborn bolted joints on axle or chassis components, performing electrical testing or maintenance work on machines. It includes fine-tooth ratchets with QuickRelease, sockets in 1/4", 3/8" and 1/2" up to 32 mm, a versatile bit set, long spark plug sockets, precise measuring and testing tools, a wide selection of screwdrivers and pliers, and numerous special tools. This equipment provides a reliable basis for all daily tasks in the workshop and in industrial environments.

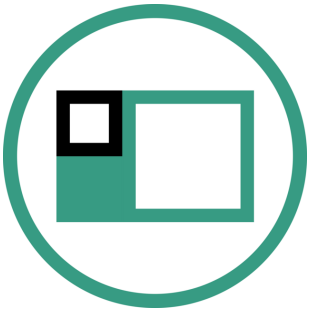

Takes on anything.
High-quality materials such as the tightly welded stainless steel tray with a scratch-resistant honeycomb structure ensure the durability typical of STAHLWILLE and prevent liquids from penetrating into the interior of the trolley. The work surface of 827 x 496 mm is particularly suitable for working on large components. Thanks to its robust construction, the 95 PRO has a static load capacity of 750 kg. Thanks to reinforcements, the drawers can be loaded with 30 kg and the bottom drawer with up to 45 kg.

Full configuration as standard.
Whether paper roll and spray can holders, all-round impact protection with shock absorption, perforations on both sides for attaching accessories, locking brakes or oil and acid-resistant smooth-running castors (Ø 125 mm) with thread protection. Our tool trolley comes with many features as standard.

Technologies and features.

Modular Inlay System
This flexible solution for tool storage makes it possible to customise your tool trolleys and workbenches with 1/6, 1/3, 2/3 or 3/3 foam inlays.

Tool Control System
The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

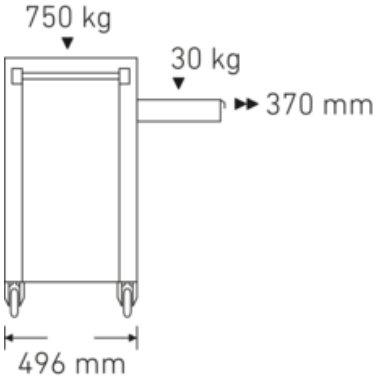

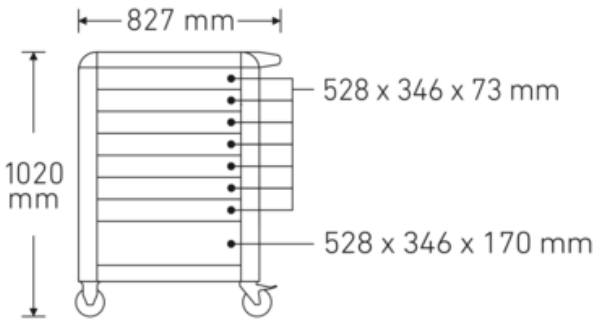

QuickRelease
The QuickRelease safety lock prevents unintentional loss of insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change. In transducers: The QuickRelease safety lock helps you to quickly mount and change transducers. The transducers lock into the calibration system and only unlock again at the push of the buttons.

High Performance Quality (HPQ®)
Our HPQ® tool is made of wear-resistant high-performance steel, yet is thin-walled and lightweight. It withstands high torques and is ideal for work in confined spaces such as turbines.
