Benefits.

Heavy-duty, robust tool trolley with 7 fully extendable drawers and central locking, including a 250-piece tool set.

The patented QuickRelease locking system secures all components, from the ratchet to the extension to the socket.

The tools are securely integrated in durable, chemical-resistant TCS inlays with precise recesses and colour-coded signal areas.

Extensive range for the highest demands: QR fine-tooth ratchets with extensions, sockets up to 32 mm, bit ratchet screwdriver and bit box, screwdriver, various pliers and much more.

The robust 98/7 tool trolley has a static load capacity of up to 1,400 kg - the bottom drawer has a load capacity of up to 60 kg.

Product highlights.

PRODUCT IMAGE IN PROGRESS

Complete solution for industry.
Our extensive range includes high-quality tools for a wide range of applications, such as vehicle maintenance, general repairs or assembly and disassembly work. It includes spanners with various sizes, sockets up to 32 mm, a large bit set, a wide selection of pliers and much more. With this equipment, you get a broad base for a wide range of applications in the automotive, electrical and mechanical engineering industries.

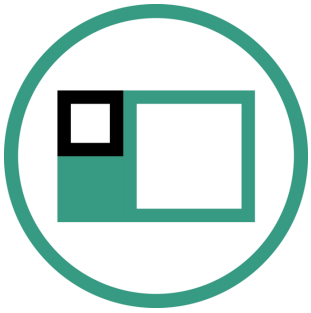

Takes on anything.
High-quality materials such as the tightly welded stainless steel tray provide the durability that is typical of STAHLWILLE, and prevent liquids from penetrating the interior of the trolley. The working area of 740 x 570 mm is particularly suitable for working on large components. Thanks to its robust design, the 98 PRO achieves a static load-bearing capacity of 1,400 kg. The drawers can be loaded with up to 40 kg thanks to stiffening, and the bottom drawer can even be loaded with up to 60 kg.

Full configuration as standard.
Whether paper roll and spray can holders, all-round impact protection with shock absorption, perforations on both sides for attaching accessories, locking brakes or oil and acid-resistant smooth-running castors (Ø 125 mm) with thread protection. Our tool trolley comes with many features as standard.

Technologies and features.

Modular Inlay System
This flexible solution for tool storage makes it possible to customise your tool trolleys and workbenches with 1/6, 1/3, 2/3 or 3/3 foam inlays.

Tool Control System
The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

QuickRelease
The QuickRelease safety lock prevents unintentional loss of insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change. In transducers: The QuickRelease safety lock helps you to quickly mount and change transducers. The transducers lock into the calibration system and only unlock again at the push of the buttons.
