Benefits.

This set supports internal hex and TORX bolted joints on machinery, assemblies, and technical designs in the service domain.

Highlights include the 1/2” TORX inserts and 1/2” INHEX inserts, complemented by a large number of precision additional 1/4” variants.

The systematic sorting makes it easier to select the right profile, reduces potential mix-ups, and supports rapid work steps in maintenance tasks.

Centred on socket technology, it arose from the demand for positive-locking inserts for a variety of screw profiles.

The target group includes service and repair technicians who need clearly organised, precision profile inserts for a range of connectors.

Technologies and features.

Tool Control System
The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.
